Positive Behaviour for Learning:

Positive Behaviour for Learning (PBL) is a whole school approach for creating a positive, safe and supportive school climate in which students can learn and develop. This approach involves the school community working together. Students are empowered to participate in decision-making through active involvement in the school's leadership of PBL.

All staff are responsible for teaching the behaviour expectations, providing consistent positive feedback to students, and delivering consistent corrective feedback and consequences when expectations are not followed. The entire school, including the classrooms, playground, school gates and buses, is considered part of the total learning environment.

Mulbring Public School is a PBL school. As a key component of this process, we need a school mission statement.

We ask that you consider each of the statements listed below and place a tick next to the one you think best reflects our aims, goals and values at Mulbring Public School;
